WOW! WHAT A START

President’s Message
By David Qualls, P.T.

The weekend of January 19 and 20th, your LPTA Board of Directors and Committee Chairs met for a memorable weekend. We came together for the start of a great year, I think. For the first time in a few years, we have chairpersons who have volunteered for all of our Districts and Committees. What a great testament to you, our members.

Our weekend started as we reviewed our positions and responsibilities. Greg LeBlanc led us through a review of our still new strategic plan. This is the plan that your leadership developed two years ago and the one you recently adopted. It is a working strategic plan and we once again realize that. In some areas we are doing okay and in others we are behind. It turned out to be a great review for us. We were then led through an exercise Saturday afternoon by Greg Melia from the American Society of Association Executives. Greg led us through the ‘Seven Measures of Success.’ This is a take off of the book “Good to Great”, written by Jim Collins. The “Seven Measures of Success” was developed for associations to make them great. We all had a wonderful time as we shared together and did some brainstorming about LPTA and the work ahead for 2008.

On Sunday morning we met again for our Board of Directors meeting as we started planning for the new year. You will continue to hear more about our plans. We know we again will have some legislative challenges and we are continuing to work on the Payer Forum. Reimbursement issues continue to be in the forefront of our discussions.

Members of your LPTA Leadership were also in attendance at the Louisiana State Board of Physical Therapy Examiners’ hearing in Lafayette on January 30, 2008. Attendance was great and the dialogue was very informative for the State Board. We await the Board’s new language and recommendations on PTA supervision.

I recently returned from CSM. As the members of the 50 states and Puerto Rico met with APTA, we discussed goals and

PRESIDENT’S MESSAGE
(continued from page 1)

objectives for 2008 and beyond. The Branding Task Force continues to work on a statement that will be recognizable to society and relates to physical therapy. When you hear this statement, you will automatically think “physical therapy.”

APTA continues to work on reimbursement issues nationwide, as well as locally in some states. Also, the APTA Board and staff are working on marketing issues for physical therapy in all practice settings. Legislative issues are still in the forefront concerning athletic trainers, referral for profit settings and direct access to Medicare, to name a few. APTA is also developing a new Strategic Plan. Please continue to watch for new information in the APTA Bulletin you receive weekly.

Please attend our Spring Meeting in Lafayette on March 28, 29 and 30th. We will discuss issues during the Open Forum, Board Meeting and Business Meeting. Chris Powers will present an excellent continuing education course. Also, please watch for PT Day at the Capitol coming in April.

I hope that you will be infected with the energy your LPTA Board of Directors has. Please share your thoughts and ideas with us. We want to hear from you.

Again, thank you for being a member of LPTA. I really appreciate your membership.

See you in Lafayette!

---

PTA Meeting
* Date and Time Change *

Attention all PTAs!! The Spring Meeting is fast approaching and we will have a new day and time to meet. Our new meeting time will be **Saturday, March 29th at 6:00 p.m.** (as soon as the course dismisses). There will be lots to talk about such as new supervision rules for PTAs, forming a PTA Special Interest Group and reimbursement issues affecting PTAs. There will also be some really great door prizes! Please make an effort to attend and let your voice be heard.

See you in Lafayette!
Jerry Allgood
PTA Caucus Representative

---

P.T. DAY AT THE CAPITOL
April 8, 2008

PTs are heading back to Baton Rouge on Tuesday, April 8th for P.T. Day at the Capitol. This is where we show off our skills to the legislators and their staff. The last time we were there we made a BIG IMPRESSION!

This will be our first time back since Katrina. Sixty percent of the House Representatives are new, so there is much to educate them about PTs. We do this by working on their aches and pains.

We plan to do this every other year because the following year is a fiscal session.

We are looking for PTs and PTAs with good hands-on skills and PTs/PTAs to bring tables and/or massage chairs so we can work on people. It is also a great time to learn from each other about the different techniques, information, and styles we all use. It is a lot of fun.

Let me know if you are interested in joining the FUN in Baton Rouge or if you know of other PTs/PTAs that are interested please let them know.

Contact Alison at the LPTA office at 225-922-4614 to sign up or Àlice for more information. Thanks!

Àlice Quaid

LPTA Seeking Member to be Webmaster.

Please contact the LPTA office at (225) 922-4614 or by email at office@lpta.org if you are interested.
E2 - Extremity Integration
March 14-16, 2008
East Jefferson General Hospital Outpatient Rehab
Metairie, LA

Tuition: $595
21 Hours: 2.1 CEUs
Prerequisite: E1
This three-day seminar highlights the interrelationships of extremity joint complexes, along with thorax and spinal influences with emphasis on kinetic chain events. Soft tissue and joint techniques for both examination and treatment are practiced in lab sessions.

S1-Introduction to Spinal Evaluation & Manipulation
April 2-6, 2008
East Jefferson General Hospital Outpatient Rehab
Metairie, LA

Tuition: $895
35 Hours: 3.5 CEUs
Prerequisite: None
This is a five-day seminar emphasizing interpretation of basic science knowledge toward the development of clinical skills needed for differential evaluation and effective treatment of spinal dysfunction.

### Pediatric Pearls for Practice

The Pediatric Section of the APTA is dedicated to educating therapists and the community on the practice of pediatric physical therapy. Below are a list of available downloads for any therapist at [www.pediatricapta.org](http://www.pediatricapta.org). Click on the link for Consumer Resources and scroll to downloadable brochures. Below is a list of information that therapists can easily print and disseminate to the community. These items are a small number of other resources for therapists that will be highlighted in future Bayou Bulletins.

**Downloadable Brochures:**

- Brochure: ABCs of Pediatric PT
- Brochure: Early Intervention: Physical Therapy Under IDEA
- Brochure: Providing PT in the School Systems Under IDEA
- Considering Interventions from Alternative & Complementary Medicine
- Natural Environment
- Using APTA's Guide to Physical Therapist Practice in Pediatric Settings
- Evidence-based Practice in Pediatric Physical Therapy
- A Pediatric Case Example: Application of the Guide to Physical Therapist Practice
- Intervention for Youth Who Are in Transition from School to Adult Life
- Developmental Coordination Disorder
- Promoting Your Child's Development: Information Resources for Families of Children with Disabilities
- Assistive Technology and the Individualized Education Program
- Resources for Reimbursement for Pediatric Physical Therapy Services and Durable Medical Equipment

**Clinical Physical Therapist Position**

**Earl K. Long Hospital**

Louisiana State University Health Science Center  
School of Allied Health Professions, Department of  
Physical Therapy at Earl K. Long Hospital in Baton Rouge.

The Department of Physical Therapy invites applications for a Clinical Physical Therapist to practice in the Earl K Long Hospital Department of Physical Therapy. Requirements include license to practice physical therapy in Louisiana or eligible for licensure.

LSUHSC offers a very competitive salary, an excellent benefits package, and a generous retirement plan. Interested candidates should submit a cover letter, and curriculum vitae to:

Penny G. Kroll, PT, PhD, Professor and Department Head,  
Search Committee Chair,  
1900 Gravier St., Box G6-2, New Orleans, LA 70112,  
or Email: pkroll@lsuhsc.edu

The LSUHSC/SAHP has a strong commitment to the principle of diversity and, in that spirit, seeks a broad spectrum of candidates. Applications will be reviewed beginning immediately and will continue until the position is filled.

LSUHSC is an EEO/AA Employer.
The LPTA Board of Directors met in Woodworth, Louisiana in mid January, and we are determined to find ways to serve the membership more efficiently and effectively. One of the ways to provide more information is to send out periodic e-mails with important up-to-date information. Please contact Alison at office@lpta.org to make sure we have your current email address.

The following issues were discussed at the retreat:

- With the resignation of Richard Baker, Louisiana has lost much of our seniority in Washington. It is important that we support new legislators who are aware of, and sensitive to, issues related to physical therapy. Most notable of these is the Medicare reimbursement issue that will be determined in June. The extension of the exceptions and the issue of Direct Access will be determined at that time. Regardless of the setting in which you work, these issues will affect your practice. Make sure that you learn as much as you can about the issues and inform candidates of your stance.

- The new state legislature has been called by Governor Jindal. There are several potential issues that need to be followed. If you have direct contact with one of the legislators, please let us know. We want to contact as many of them as possible before the sessions begin, to inform them of the issues related to PT. A large percentage of them are new and this is a prime time to meet them. We have a great lobbyist in David Tatman and we have a great Chair of the Governmental Affairs Committee in Kevin Garrigan. Both will work with members who want to get involved, and keep us all informed. Be on the lookout for important e-mails from both the LPTA and The Tatman Group. The following issues related to the legislature need to be followed:
  - There is a national push by Athletic Trainers to gain licensure and the right to treat injuries and illnesses. We anticipate another attempt this year.
  - If you have found a patient’s ability to access physical therapy treatment has been undermined by the United Health Care decrease in reimbursement, particularly in the rural parishes, please contact the Louisiana Insurance Commission and let them know. Direct your comments to
    Ms. Charlene Rhodes
    Louisiana Department of Insurance
    Office of Health Insurance
    PO Box 94214
    Baton Rouge, LA  70804
  - PT Day at the Capitol has been scheduled for April 8, 2008. Please consider participating in this event. It has been very effective in the past, and it is very important this year.
  - Proposed revisions to the Rules and Regulations pertaining to PTA supervision were printed in the April 20, 2007 issue of the La. State Register. The link is on the State Board’s web page at www.laptboard.org if you would like to review the language. There was an open hearing on January 30th and we await the new language and regulations.

FYI—Important Medicare information for patients working in in-patient settings: New regulations going into effect soon!!! Medicare will no longer pay for any decubiti or nosocomial infections acquired in the hospital setting. If potential problems are not documented on admission, they will be considered nosocomial in nature. It is very important that PT evaluations and Dr’s admission evals identify issues and that they are in sync. The Open Forum from 5:00-6:00 on Friday evening (March 28) at the LPTA Spring meeting will address this issue as well as the PTA supervision changes. Please try to attend.

Respectfully,
Kitty Krieg, PT
LPTA Baton Rouge District Chair
The Calling to the Capitol  
Tuesday, April 8, 2008

Living in the South we often times have the wonderful opportunity to welcome spring-like weather early. For example, as I write this article, our azaleas are in bloom in the flowerbed, and yes, it’s only February. Their cheery colors and new growth are a welcomed change right about now. That’s one of the great things about spring; the sense of newness and freshness.

Just like our azaleas, the House of Representatives has a sense of newness and freshness. This year the House is 60% comprised of new representatives.

We as physical therapists will have the chance to meet these new, fresh representatives on April 8th for P.T. Day at the Capitol. This is an excellent venue for us to be able to educate these new lawmakers and their staff members on who we are, what we do and how vital our services are as health care providers.

But the operative word is “we”. In order for our voices to be heard in Baton Rouge a great turnout is necessary on April 8th. That means lots of physical therapists, physical therapist assistants and physical therapy students are needed to descend on the Capitol to present ourselves as a prominent, impressive, committed, dedicated, robust “we”! And without “you” there can be no “we”!

These new legislators need to hear directly from us about our concerns and the issues affecting our profession. One-on-one conversation with the decision makers of our state is a very effective way to convey information pertinent to our profession, and to leave a much more enduring impression.

Since Hurricane Katrina the LPTA has not been back to the Capitol, en masse. Therefore, I implore you to come and participate in this extremely important event, even if you can only break away for an hour or two!

Please contact Alice Quaid, the event coordinator, at (504) 828-5151 work, (504) 338-6008 cell, or coretouchtherapies@msn.com for more information or contact Alison at the LPTA office to volunteer and choose your time slot.

I look forward to seeing lots of you great, talented folks at this great public relations event! Bring a co-worker along to mingle with the reps and your colleagues. “We” will certainly appreciate your presence!

Kinta LeBlanc (225) 261-9029 k_mader@hotmail.com
Rehabilitation Career Opportunities

Ochsner Health System is a multi-specialty, healthcare delivery system dedicated to patient care, research and education in southeastern Louisiana. With seven hospitals, 25 regional health centers and three fitness centers, Ochsner offers a wide array of employment opportunities with potential for long-term advancement.

Physical Therapist | LPTA | PT Tech | Occupational Therapist
COTA | Athletic Trainer | Speech Therapist

Opportunities are available in Inpatient Rehab, Outpatient Rehab, Sports Medicine, Home Health, SNF, Acute, Wound Care, and Stroke Specialty.

To apply online, please visit www.ochsner.org/employment.

For more information on full-time and part-time positions, please contact Human Resources Employment Services at 504-842-3600 or email humanresources@ochsner.org.

Ochsner is proud to have been named the “Best Place to Work in New Orleans” in 2005 and 2006 by CityBusiness. Ochsner is an Equal Opportunity Employer.
MEMBERS MENTORING MEMBERS

Member Mentoring Members (MMM) is an APTA member benefit, free to you, provided to serve as a resource for all members — students, new professionals, experienced professionals, PTs, and PTAs. The MMM program is designed as an informal and flexible program: mentors and proteges determine the scope of mentorship. Volunteer mentors will help you with career, clinical, and professional issues. Search the mentor directory on the APTA website at www.apta.org and get a complete list of expertise areas included in the MMM program.

GENEVA JOHNSON PRESENTS LECTURE AT CSM

Geneva Johnson, PT, PhD, FAPTA, from Baton Rouge gave the Pauline Cerasoli Lecture, titled Physical Therapy: A Profession of Purpose, Promise, Potential, and Power, at the Combined Sections Meeting in Nashville on February 8th. Dr. Johnson shared the history of Physical Therapy, which evolved in the United States from a strong foundation in remedial physical education, through the present day health care system, as a foundation for the future as we move toward Vision 2020. The body of knowledge specific to Physical Therapy and the knowledge gained from ongoing research provide a powerful resource for physical therapy professionals as we “assume increasing roles in the health care system of the U.S., and all other countries that welcome our assistance.”

Leah Geheber, Geneva Johnson, PT, PhD, and Kitty Krieg at the Paula Cerasoli lecture.

PHYSICAL THERAPY PROVIDER NETWORK (PTPN)
INVITES NEW MEMBER APPLICATION AND
LAUNCHES NEW CASH PAYING PROGRAMS FOR MEMBERS

Physical Therapy Provider Network, Inc. (PTPN), the oldest and largest rehabilitation network in the United States for private practice therapists, has been in operation for the past fifteen years in Louisiana and the past eleven years in Mississippi. PTPN is presently made up of physical, occupational, and speech therapists in independent practice and its members include nearly 100 clinics geographically distributed throughout the states of Louisiana and Mississippi.

It is PTPN’s mission to maximize the independent therapist’s clinically effective and profitable participation in healthcare. Members meet strict credentialing criteria and adhere to PTPN’s quality assurance and outcomes programs to ensure appropriate and efficient care.

PTPN member clinics gain quantifiable value from their PTPN Membership. The greatest value they report is access to more patients and more revenue through PTPN’s contracts with payers. In addition, PTPN members save money through PTPN’s handling of contracting and credentialing functions and through negotiated discounts on brand name supplies and services – from liability insurance to gym equipment. The PTPN network of providers is marketed to payers on the local, statewide, and national levels in order to give our members the broadest base of business possible.

In addition, PTPN is an active member of LABI (Louisiana Association of Business and Industry), LAHP (Louisiana Association of Health Plans), LBGH/LIICA (Louisiana Business Group on Health/Louisiana Healthcare Alliance), and LASIE (Louisiana Association of Self Insured Employers). Our role in these organizations allows private practitioners to collectively have their voice heard as one.

PTPN will soon launch its newest initiative - a new cash pay program under a national consumer brand to counteract the downward pressures on insurance reimbursement by capturing a share of the cash-paying consumer market. Our goal is to boost business, expand practices, and generate new streams of revenue for our member clinics.

PTPN is a different type of rehab network, one that stands above the others in today’s turbulent marketplace — a network of independent therapists that payers and patients rely on for integrity, stability, and quality. Founded in 1985 in California, PTPN has expanded its services to include 23 states nationally. PTPN has been named the country's largest specialty PPO in both 1994 and 1995 as reported by the American Associate of Preferred Provider Organizations (Washington, D. C.). It was awarded the 1996 PPS (Private Practice Section) Practice Award from the American Physical Therapy Association. This award is given for innovative operation for a specific project that promotes a positive image of private practice therapy in the community.

We welcome and encourage you to become a PTPN member. PTPN is located at 4521 Jamestown Avenue, Suite 1, Baton Rouge, LA 70808. Any interested therapist should contact Executive Director, Kim Bueche Hardman, at 225-927-6888 or kbueche@ptpnlala.brcoxmail.com for details. Visit our website at www.ptpn.com/LA_MS
LOWER QUARTER BIOMECHANICS: IMPLICATIONS FOR THE EVALUATION AND TREATMENT OF MUSCULOSKELETAL DISORDERS

COURSE DESCRIPTION:
Altered lower quarter mechanics are frequently implicated as being contributory to various musculoskeletal conditions. An understanding of how abnormal limb function can contribute to the mechanisms of specific joint dysfunction is essential for the evaluation and treatment of common orthopaedic disorders. This evidence-based course will review the anatomy and mechanics of the lower kinetic chain, particularly in relation to specific pathologies of the ankle, knee and hip. Emphasis will be placed on current research findings in the areas of gait analysis, lower limb function, and joint biomechanics. Implications for the evaluation and treatment of various musculoskeletal conditions also will be addressed.

COURSE OBJECTIVES:
At the completion of this course the participant will be able to:
1. Describe the normal anatomy and biomechanics of the foot/ankle, knee and hip.
2. Describe the normal joint kinematics, kinetics and muscle actions during the gait cycle.
3. Describe the normal interaction of the hip, knee, ankle and foot during walking and various functional tasks.
4. Describe pathological lower chain mechanics and segment interactions.
5. Describe the pathomechanics of common disorders of the foot/ankle, knee and hip.
6. Describe the current research literature related to lower extremity biomechanics and pathomechanics.
7. Plan appropriate treatment interventions based on biomechanical assessment of the lower extremity.

COURSE INSTRUCTOR:
Christopher M. Powers, PhD, PT
Christopher M. Powers, Ph.D., P.T. is an Associate Professor in the Department of Biokinesiology and Physical Therapy and Director of the Musculoskeletal Biomechanics Laboratory at the University of Southern California. His primary research interests are concerned with the kinematic, kinetic and muscular actions associated with human movement, the pathomechanics of orthopedic disabilities, and issues related to rehabilitation of the musculoskeletal system. Dr. Powers is an active researcher, and has published over 80 peer-reviewed articles. He frequently lectures both nationally and internationally on topics related to lower limb biomechanics and the pathomechanics of orthopaedic disorders.

ELIGIBILITY:
Physical Therapists, Physical Therapist Assistants, PT Students and PTA Students.

COURSE HOURS:
12.0 Contact Hours. LSBPTE Approved.

ACCOMMODATIONS
Lafayette Hilton and Towers, 1521 West Pinhook Road, Lafayette, LA 70505
Phone: (337) 235-6111

RATES: $97.00 per night (Single/Double) $137.00 per night (Executive King)
$107.00 per night (King) $187.00 per night (One bedroom suite)
$127.00 per night (Executive Double) $277.00 per night (Two bedroom suite)

Registrants and exhibitors must make their own room reservations. Please identify yourself with the "Louisiana Physical Therapy Association" to receive the group rates. Please reserve your rooms early. The hotel will hold a block of rooms open for attendees, at the above rates, for reservations made on or before March 6, 2008. Please call them for availability regardless of when arrangements are made. Should you have any difficulty making reservations at any time, or should the hotel indicate that our block has been filled or has expired, even after the cutoff date, please contact the LPTA Office at (225) 922-4614 to see if there is some way we can assist you.
UPDATED SCHEDULE OF EVENTS

FRIDAY, MARCH 28, 2008
